Unlock your life with smart solution
Leave your home security to Be-Tech

**Various access(RF cards, PIN)**

Be-Tech V3A8MT has Two access solutions, Fingerprint, RF Card key or PIN code for your convenience.

**Invisible keypad**

Keypad number can be seen only when you touch the screen with your palm.

**Fake PIN code**

You can make an instant PIN code for security.

**Operation status notification**

Whenever any operation is made, the LED indicator informs you what is happened through different color and blinking.

**Automatic locking**

Door lock will be locked automatically after opening door a few seconds (Manual operation is also available)

**Missing key invalidation**

Once you lose your key, it has no validation as long as you re-register rest of your keys.

**Anti-panic exit system**

For convenience and in case of emergency, allows you to open the door by simply turning its handle from inside.

**Alarm (Incorrect Fingerprint, RF Card or PIN code)**

Alarm will be on and last for 60 seconds if anyone attempts to open the lock by key in 3 times incorrect PIN code.

**Low battery warning signal**

A continuous "beep" sound during door access will alert you to replace batteries.

**Scramble code**

You can meaningless number prior to the right code when there is chance of exposing it to others.

**Mechanical key override**

For emergency, it can also be unlocked with a mechanical key.
