Easy Access
Leading Keyless Solutions Since 1992

Various Access

Be-Tech 0800FMTL has five access solutions, Fingerprint, RF Card Key, Mobile Key, Code, Mechanical Key for your convenience.

Under-panel fingerprint

Under-panel fingerprints have better sealing to easily cope with outdoor environments.

Operation Status Notification

Whenever any operation is made, the LED indicator informs you what is happening through different colors and signs.

Automatic Locking

Door lock will be locked automatically after opening door a few seconds. (Manual operation is also available)

Missing Key Invalidation

Once you lose your key, it has no validation as long as you re-register rest of your keys.

Exterior Dry Contact Input

Available to combine with other exterior control unit which adopts dry contact signal as output

Alarm (Incorrect Fingerprint Or RF Card or Code Attempt)

Alarm will be on and last for 60 seconds if anyone attempts to open the lock with incorrect Fingerprint or RF Card or Code for 5 times.

Low Battery Warning Signal

A continuous “beep” sound during door access will alert you to replace batteries.

Mechanical Key Override

For emergency, it can also be unlocked with a mechanical key.
